DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- Claims 1-13, drawn to a method for managing cooperative position among wireless transmit/receive unit in a wireless communication system, classified in class 455, subclass 404.2.
- II. Claims 14-16, drawn to a wireless transmit/receive unit, classified in class 455, subclass 456.1.
- 2. The inventions are distinct, each from the other because of the following reasons: Inventions I and II are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because a wireless communication system manages cooperative position among wireless transmit/receive unit. The subcombination has separate utility such as a wireless transmit/receive unit stores the number of instance where positioning information is provided to the system.
- 3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Application/Control Number: 10/729,644

Art Unit: 2686

4. Applicant is advised that the reply to this requirement to be complete must

include an election of the invention to be examined even though the requirement be

Page 3

traversed (37 CFR 1.143).

Conclusion

5. Any inquiry concerning this communication or earlier communications from the

examiner should be directed to Nghi H. Ly whose telephone number is (703) 605-5164.

The examiner can normally be reached on 8:30 am-5:30 pm Monday-Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's

supervisor, Marsha Banks-Harold can be reached on (703) 305-4379. The fax phone

number for the organization where this application or proceeding is assigned is 703-

872-9306.

Information regarding the status of an application may be obtained from the

Patent Application Information Retrieval (PAIR) system. Status information for

published applications may be obtained from either Private PAIR or Public PAIR.

Status information for unpublished applications is available through Private PAIR only.

For more information about the PAIR system, see http://pair-direct.uspto.gov. Should

you have questions on access to the Private PAIR system, contact the Electronic

Business Center (EBC) at 866-217-9197 (toll-free).
